Date of Birth: 16/01/2006

PROFESSIONAL EXPERIENCE

Internship Experience

Frontend & Backend Developer Intern | [Chess Vanguard](#)
Duration: 6 Months

Responsibilities & Achievements:

- Developed and maintained responsive web interfaces using React.js, HTML, CSS, and Tailwind CSS for a chess learning platform.
- Implemented backend APIs using Node.js, Express.js, and MongoDB for handling user data, classes, and tournaments.
- Integrated user authentication, attendance management, and class scheduling features to enhance platform functionality.
- Collaborated with the team using Git & GitHub for version control and project management.
- Participated in end-to-end development, from requirement analysis to deployment, ensuring a seamless user experience.

Key Projects:

- Online chess class management system with teacher-student interface.
- Attendance and tournament tracking modules.
- Fully functional dashboard for students and teachers

Projects

IRCTC Booking Assistant - Chrome Extension

- Developed a Chrome extension to streamline and automate the IRCTC train ticket booking process.
- Implemented auto-fill functionality for passenger details such as name, age, and other essential information, saving users' time.
- Enabled automatic form submission as soon as the booking window opens, reducing manual effort and improving booking success rates.
- Enhanced user experience by minimizing errors and speeding up the ticket reservation process.
- Utilized JavaScript, Chrome Extension APIs, and web automation techniques to build a reliable and efficient tool.
